Ceramic Grills & Accessories

Made in USA

To the backyard barbecuer who sees outdoor cooking as a uniquely satisfying experience. Who regards their backyard as their domain; a place to relax and escape the availability and fast pace the culture demands. To the outdoor chef who finds cooking over a wood fire to be curiously instinctive. To the weekend griller who considers cooking and sharing a delicious meal with family and friends as time well spent. To those who admire American ingenuity, craftsmanship, and the independent spirit. To the achiever who works hard and has earned the right to reward themselves.

We understand.

When George Samaras completed his tour of duty as a pharmacist in the Greek military in 1986, he needed to find a career so he turned to his love of the sea. He began racing sailboats and captaining a yacht for tourist excursions throughout the Greek islands.

In 1988, he met his future wife Kelley, an American who was vacationing with her family and had chartered Samaras' boat. George was taken with Kelley and they stayed in touch after she returned home. She eventually moved to Greece and later the two were married. Seven years later, the couple decided to move to the United States.

George's father-in-law had a Kamado cooker and on Thanksgiving Day, George had roasted turkey for the first time. He was amazed at the juiciness and delicious flavor of the bird that was cooked on the kamado. It looked and performed unlike any grill he had ever used.

He bought a kamado for himself and cooked on it regularly. He told his friends and family about it and began shipping them back to Greece for them to use. Eventually George had over 80 people in his homeland that wanted a kamado, so he asked the manufacturer if he could start a distributorship in Greece, but they declined.

Not to be deterred, George saw a niche in the market and decided that he would make his own kamado cookers. He was told by many people, including ceramic engineers, that it couldn't be done, but he pressed on and spent the next several years developing and testing his own formula for the refractory material to get the right blend.

In 1996, he was ready to sell his ceramic grills. Samaras chose the name, "Primo" which means "the best" in Italian. His first manufacturing facility was a 700 sq. ft. space he rented. Due to the limited space he could only make two grills at a time and he had to drive across town to a kiln to have them fired.

Over the next several years, Primo's kamado style grill grew in popularity as word spread about their quality and as the only ceramic grill made in the United States.

Samaras has a love for improving his ceramic grills and innovative products and in 2000 he introduced the Primo 2000, a combination gas and ceramic grill.

His idea was to use the superior heat and moisture retention characteristics of a ceramic grill and the convenience of gas as a heat source that so many outdoor cookers prefer.

It was an unrivaled product never before seen in the industry, and over 700 were sold. Production was discontinued a few years later due to the shipping and assembly requirements.

George was also looking beyond the round shape of the traditional kamado and discovered that an oval-shape offered a much higher cooking versatility and efficiency. It forever changed the direction of Primo.

The introduction of the patented oval-shaped grill in 2002 established Primo as a major manufacturer in the ceramic grill market.

Today, Primo is headquartered in a 92,000 sq. ft. facility in Tucker, Georgia where their ceramic grills are produced. Primo is available in more than 27 countries around the world.

Proudly Made in the USA 4 out of 5 Americans prefer products made in the USA.*

Primo is the only ceramic grill made in America. We use domestic raw materials, and the firing and assembly all take place at our headquarters in Tucker, Georgia. We are extremely proud of the American ingenuity and quality craftsmanship in each of our ceramic grills. Surprisingly, virtually all major ceramic grill companies source their grills from foreign companies. They have little or no quality control of the manufacturing process.

Patented Oval Design

The unique patented oval shape delivers the highest cooking flexibility and efficiency of any other ceramic grill. Get true two-zone direct and indirect simultaneous cooking on each side of your grill. Grill steaks on the direct side and roast vegetables on the indirect side.

The oval shape also creates an extremely efficient cooking area with easier accessibility to your food. It accommodates more food like steaks, sausages, large roasts, ribs and whole chickens. Grill, bake, roast or smoke more food at one time.

Best-In-Category Limited Lifetime Warranty Backed by a 20-Year Guarantee

Primo is the only ceramic grill company to offer a Limited Lifetime Warranty backed by a 20-Year Guarantee. Surprisingly, a “lifetime warranty” is defined by each state, not the company offering it. Some states determine that a lifetime warranty can be as little as a few years. Our limited lifetime warranty with a 20-year guarantee assures you that your new grill is covered for many years of use and enjoyment.

* Consumer Reports magazine February 2013

Amazing Flavor

The combination of our premium-grade ceramics and Primo Natural Lump Charcoal creates amazingly juicy food with true charcoal flavor. The ceramic shell helps food retain its natural moisture, unlike metal grills that pull the moisture out. Our charcoal is made from American hardwoods and infuses your food with a distinctively mild smoky flavor.

Exceptional Temperature Control

Cook as low as 150°F to smoke a salmon or to well over 850°F for sizzling ribeyes. Or cook “low and slow” for multiple hours to enjoy a succulent leg of lamb or tender pulled pork.

Lights Easily & Heats Quickly

You can be ready to cook in as little as 15 minutes; the same time it takes to preheat a gas grill. Another great feature of our Natural Lump Charcoal is that it can be relit for multiple cookings.

Low Maintenance & Self Cleaning

Primo ceramic grills practically take care of themselves. Periodic inspections ensure that your grill will perform and look great for years. Our grills also work like a self-cleaning oven.

Weather Resistant

Primo ceramic grills are made to live outdoors. Our premium-grade ceramics, glazes and hardware are made to withstand extreme climates. Depend on Primo Ceramic Grills wherever you live.

Premium-Grade Ceramics

Primo ceramic grills are composed of a proprietary blend of natural materials to make the highest grade of ceramics available for superior heat and moisture retention. Combined with quality-controlled production processes and an unmatched firing temperature, our ceramics are significantly more efficient than other ceramic grills. Use less fuel, reach your desired temperature faster and reduce your cooking time with Primo.

The Primo Patented Oval Design

The One. The Only. True Oval.

The Primo Oval offers true two-zone simultaneous direct and indirect cooking. That's a fancy way of saying that you get two very distinct cooking zones. Almost like using a grill and an oven at the same time. Grill steaks on the direct side and roast seafood or vegetables on the indirect side. No round grill offers so much cooking versatility.

The Reversible Cooking Grid, Heat Deflector Plates, Extension Racks, and other accessories allow you to create more than 69 different cooking configurations. No other grill offers so much versatility.

Grill, bake, roast or smoke any food with Primo.

Cool air is drawn into the bottom vent, then heated by the charcoal. The heated air convects around the food before exiting the top vent. The ceramic shell retains more heat than metal grills, and helps food retain more of its moisture than conventional grills.

Popular Cooking Configurations

Grill mouthwatering steaks, bake authentic wood-fired pizza, roast a turkey, or smoke a beef brisket to tender perfection. Any food and recipe can be cooked on a Primo. The possibilities are endless.

A Primo Grill allows you to grill, bake, roast, smoke, sear, braise, sauté, barbecue, caramelize, flambé, broil, fricassee, pan-fry, baste, parboil, boil, poach, scallop, simmer, stew, stir-fry, and more.

New for 2016

Primo GO & GO Base

The Primo GO is a two-piece cradle and base for the Oval JR 200, making it the largest portable ceramic grill available. It's also great for at-home use on your deck or patio without the need for a grill table or cart.

Cypress Counter Top Table

Built for additional working space and a handy storage area. Unfinished. Available for XL 400, LG 300, JR 200 (JR 200 shown).

Hand-Made Cypress Grill Table

Durable and beautiful. Comes unfinished. Available for XL 400, JR 200, Kamado (XL 400 shown).

Compact Cypress Grill Table

Designed for limited space on a deck or patio while still offering the beauty of a wood table. Comes unfinished. Compatible with XL 400.

Additional Table Options

- **Cypress All Event Table**
Holds one XL 400 and one JR 200. Comes unfinished.
- **Cypress Prep Table**
Perfect for more working space. Comes unfinished.

*Wood tables include four ceramic shoes for air flow under the grill base.

Heat Deflector Plates

Converts your grill into an oven, for roasting and smoking. *Heat Deflector Racks Required.* Comes in specific models for XL 400, LG 300, JR 200.

Heat Deflector/Drip Pan Racks

Holds the Heat Deflector Plates for indirect cooking and may be used to hold a drip pan. Comes in specific models for XL 400, LG 300, JR 200.

Heat Deflector (Kamado)

Turn your Kamado grill into an oven, roaster and smoker. Includes one ceramic plate and frame per box. Frame also sold separately. *For Kamado only.*

100% Natural Lump Charcoal

Made from American hardwoods for true wood-fired charcoal flavor. Burns hotter and longer than other lump brands or briquette charcoal. Available in 20lb (9kg) bags.

Baking/Pizza Stones

Bake bread, hot appetizers and true wood-fired pizza. Available in glazed and unglazed. Available in two sizes: 16" for XL 400, LG 300, Kamado. 13" for JR 200.

Extension Rack(s)

Two extension racks will almost double your cooking capacity on any grill. One rack per box. Comes in specific models for XL 400, LG 300, JR 200.

Quick Lights Fire Starters

Light our 100% Natural Lump Charcoal quickly and easily with our match-tipped fire starters. Strike them like a match and insert into the charcoal.

"V" Rack

Roast or smoke large cuts of meat simultaneously. Invert it to hold multiple racks of ribs. Compatible with XL 400, LG 300, Kamado.

Rib Rack (5 Slot*/9 Slot**)

Porcelain coated for easy cleaning. One rack per box. *Compatible with XL 400, LG 300, JR 200, Kamado. **Compatible with XL 400. Both racks can be stacked in the XL 400 to cook 14 racks of ribs.

Primo Accessories

Grill Covers

Protect your grill from the elements with our durable grill cover. Custom fitted for every grill configuration whether it's in a table, cart or cradle.

Remote Thermometer

Measures grill and food temperatures. Alarm sounds when your target temperature is reached or if the grill falls outside programmed range.

Chicken & Turkey Sitters

Designed to add flavor and moisture into whole poultry. Add herbs and spices to water or make "beer can" chicken. *Chicken Sitter compatible with all grills.*

Cast Iron Grate

Our half-moon grate is perfect for searing meats and locking in the juices at high temperatures. *Comes in specific models for XL 400, LG 300, JR 200.*

Cast Iron Griddle

Our dual purpose griddle with a smooth and a grooved side allows you to fry, sear and sauté. *Comes in specific models for XL 400, LG 300, JR 200.*

Fire Box Divider

The cast-iron divider creates simultaneous direct and indirect cooking and conserves charcoal. *Available for XL 400, LG 300, JR 200.*

Sauce, Seasonings & Rubs

Specially developed for use as a seasoning or a rub to enhance the flavor of beef, pork, poultry, fish and seafood. Great on vegetables and salads.

Ash Tool

A "must have" tool to easily clean out the ash from your grill, or to stir the natural lump charcoal when lit.

Grate Lifter

Easily remove your cooking grate or any of our racks from the grill. Chrome plated steel for years of use.

Grate Cleaning Bar

The cleaning fork easily removes food residue from cooking grate rods and it will not damage porcelain coated grates.

Gasket Replacement

These high heat-resistant replacement kits are designed to last for years. *Available for all Primo grill models.*
